# VINALKYD 520 PD

# Orthophthalic unsaturated polyester resin

**Description:** It is a low-viscosity, orthophthalic, with medium reactivity unsaturated

polyester resin.

Use: It is used for machine laminating in production of plumbing and sewerage

pipes in combination of the resin with fillers, roving, accelerator and

hardener.

Hardening is achieved by adding cobalt accelerator Co-1% and hardener

MEKP-60 (Butanox M-60).

**Classification:** In compliance with the requirements of the EU legislation.

## **CHARACTERISTICS**

INDEXES NORM

**Appearance:** Transparent syrup-like liquid

(visually)

Hazen colour: max 300

(BNS ISO 2211)

Viscosity Brookfield at 25°C, 175-300 mPa.s

spindle 2, 60 rpm:

(ISO 2555)

Non-volatile content: min 55%

(BNS EN ISO 3251)

**Gel Time at 25°C:** 10 – 20 min

(1% Co-1% + 1% Butanox M-60)

(Test Method)

**Temperature maximum:**  $160 - 215^{\circ}\text{C}$ 

(Test Method)

**Orgachim Resins®** 

**Acid number:** (BNS EN ISO 2114-A)

max 30 mgKOH/g

### ADDITIONAL INFORMATION

Density at 20°C: 1,1 g/cm<sup>3</sup>

(BNS ISO 2811-1)

Flash point, closed cup: 33°C

(BNS ISO 2719)

#### PHYSICO-MECHANICAL PROPERTIES

Hardening condition: 24h at room temperatre

Post -curing: 16 h at 40°C

INDEX VALUE

**Tensile Strength:** min 70 MPa

(ISO 527-1,2)

Flexural Strength: min 120 MPa

(ISO 178)

**Elongation at break:** min 2,1%

(BNS EN ISO 527-1,2)

HDT:

(BNS EN ISO 75-1,2) min 95°C

Glass Transition: min 105°C

(ASTM E 1545-00)

Hardness at 25°C min 40 (Barcol 934-1)

(ASTM D 2583)

Water Absorption (24 hours): max 0,2%

(ISO 62)

**Solubility:** It dissolves in styrene and acetone.

Application: The unsaturated polyester resin Vinalkyd 520 PD hardens after the

following hardening system:

- accelerator – cobalt: 1% Co-1%

- hardener - 1% MEKP-60 (Butanox M-60)

The mixture should be well homogenized and then used to machine laminating in production of plumbing and sewerage pipes in combination

with roving (glass fibre) and fillers.

**Orgachim Resins®** 

**Packaging:** In metal barrels; plastic containers; cisterns made of stainless steel

**Storage:** Storage temperature: up to 25°C.

Store in original, tightly sealed packages in sheltered, dry and fire-protected storage areas, away from direct sunlight and heating appliances. Storage shelf life - 6 months from the production date in factory-sealed

packages.

Attention! Do not allow direct contact of organic peroxides with

accelerators when using, transporting and storing.

Hygiene, safety work and ecology:

Refer to the Material Safety Data Sheet for further information on the safe storage, use and handling of Vinalkyd 520 PD. The Material Safety Data Sheet (MSDS) should always be read and understood thoroughly before handling the product, and adequate safety procedures should be followed.

The present technical description has the purpose to inform the clients on the quality of our product. The data herein is based on our present best knowledge. We invite our clients before work to check the quality of the product or its adaptation to the base and to make an experimental application. Our clients must be sure, that the present technical description hasn't been changed or replaced by a newer edition.
